To All Bidders,

Dear Sirs,

TENDER NO. IRA/067/2021 - 2022 TENDER FOR SUPPLY,
INSTALLATION, TESTING AND COMMISSIONING OF ADDITIONAL
STORAGE SERVER**

The above captioned matter refers.

The Insurance Regulatory Authority (IRA) has received a Request for Clarifications (RFC) from one of participating bidder and wishes to issue this addendum. The bidder's RFC and corresponding response are as tabulated below:-

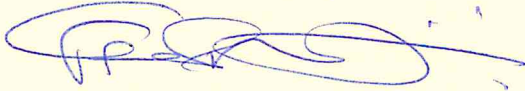

No.	Request for Clarifications	IRA's Response
1	Why is the need to have all categories of ICT Authority Certification as Category 1?	Due to the criticality of this project to the operations of IRA, where live mission-critical systems are going to utilise this additional storage, it's expected that bidders' experience in having dealt with similar projects and having the commensurate skills set required for the same are key for its success.
2	There is also no category as ICT - ICTA 1.	See the correct categories in no. 3 below
3	How relevant is end user computing and system and application applicable to the storage upgrade tender. <ul style="list-style-type: none"> • Data Center - ICTA 1 • End User Computing - ICTA 1 • ICT - ICTA 1 	For this particular tender, IRA will consider these two categories: <ul style="list-style-type: none"> ▪ Data Center - ICTA 1 ▪ ICT Network - ICTA 1 <i>(You can ignore the other two categories, i.e End User Computing - ICTA 1 and Systems and Application - ICTA 1)</i>

	<ul style="list-style-type: none">• Systems and Application - ICTA 1	
4	What is the need of having technical team certified in security in a storage upgrade tender?	This was a typographical error. This is therefore not a requirement.

In view of the foregoing, the Authority has extended the tender closing date from 18th November 2021 at 11.00 a.m. to 23rd November, 2021 at 11.00 a.m.

The other terms and conditions of the tender remain the same. Please acknowledge receipt of the Addendum No. 1 by signing and returning the appended acknowledgment page.

Yours faithfully,
