STRATEGIC FRAMEWORK

Vision

To be a leading insurance industry regulator

Mission

To protect policyholders and insurance beneficiaries and encourage a competitive insurance market through fair and efficient regulation of the industry

Mandate

The mandate of IRA as derived from the Insurance (Amendment) Act 2006 is to regulate, supervise and develop the insurance industry in Kenya, and ensure that the interests of policyholders and insurance beneficiaries are protected.

Core functions:

- i. Ensure the effective administration, supervision, regulation and control of insurance and reinsurance business in Kenya;
- ii. Formulate and enforce standards for the conduct of insurance and reinsurance business in Kenya;
- iii. Issue licenses to all persons involved in or connected with insurance business, including insurance and reinsurance companies, insurance and reinsurance intermediaries, loss adjusters and motor assessors, risk surveyors and valuers;
- iv. Protect the interests of insurance policyholders and insurance beneficiaries in any insurance contract;
- v. Promote the development of the insurance sector;
- vi. Advise the Government on the national policy to be followed in order to ensure adequate insurance protection and security for national assets and national properties;
- vii. Issue supervisory guidelines and prudential standards from time to time, for better administration of the insurance business of persons licensed under the Act;
- viii. Share information with other regulatory authorities and to carry out any other related activities in furtherance of its supervisory role; and
- ix. Undertake such other functions as may be conferred on it by the Insurance Act, 2006 or by any other written law.

FOREWORD

Chairman's Statement

I am pleased to present the Annual Insurance Industry Report for the year 2011 which has been prepared pursuant to the provisions of section 5(2) of the Insurance Act Cap 487 of the Laws of Kenya. The report reflects the performance of the insurance industry during the year. In line with the IRA mandate to develop the insurance industry, the Authority has enhanced consumer education and is developing a Micro-Insurance policy that will increase insurance penetration in the country. Still in its early stages of development, we expect to see the results from this initiative in the years to come.

The growth rate of the economy declined from 5.6% in 2010 to 3.8% in 2011 which could be attributed to rise in oil prices in the international markets and slow down in emerging markets due to increased cost of production, and Euro debt crisis resulting in implementation of rigorous measures in industrial economies. The high inflation rates in the country from 4.1% in 2010 to 14.0% in 2011, high interest rates affecting the borrowing and inconsistent weather conditions adversely affected the economy while it benefited from investments in infrastructure and investment from the diaspora.

To improve the efficiency and effectiveness of its operations, the IRA initiated the process of being ISO certified which is anticipated for completion in 2012. In addition, the IRA staff and external consultants appointed by the World Bank have been setting up platforms to allow the industry to transition from compliance based supervision to risk based supervision. Several guidelines and circulars have been issued by the IRA in this regard and the confidence and support from the industry is necessary to make this seamless and effective.

Looking ahead, the industry and economic growth rates will be driven by the weather conditions, oil prices and interest rates that will determine the borrowing and lending rate. The political environment will also determine the size of growth as the country progresses towards the elections in 2012/13.

In conclusion, on behalf of the Board of Directors, I would like to thank the Ministry of Finance, the IRA staff, the industry and all stakeholders for their continuous support in facilitating the IRA to achieve its objectives.

CHAIRMAN, BOARD OF DIRECTORS

Chief Executive Officer's Report

In 2011 the growth in Gross Direct Premium was 17.3%

In 2011, the industry registered improved performance despite the decline in the country's economic growth. Gross Direct Premium grew from KES 76.9 billion in 2010 to KES 90.2 billion in 2011. Non-life business contributed 65.1% while life business 34.9%. There was growth in the life business of 16.2% and 18.0% for non-life business.

Transition from compliance to risk based supervision (RBS)

In order to ensure sustainable growth and stability of the industry, the Authority initiated the process of transitioning from **Compliance** Based Supervision to **Risk** Based Supervision (RBS). RBS is a dynamic process where the emphasis is more on understanding and anticipating the possible risks a supervised entity will be facing when executing its business plan. One of the advantages of the RBS is that it allows comparisons of the risk profiles of individual insurers in the industry and demonstrates how the risk profiles of individual insurers evolve over time.

IRA took some steps to enhance skills on risk management

IRA engaged external consultants to assist in the RBS process which is expected to enhance stability in the industry and protection of the policyholders. The Authority will be issuing several Guidelines to the industry on the implementation of the RBS model. The industry is however faced with lack of specialized skills especially in actuarial and risk management to fully support the implementation of RBS.

To this end, IRA established an actuarial scholarship scheme with the aim of increasing the pool of actuaries in the Kenyan market. Already, the first cohort of five students has graduated with Masters Degree in Actuarial Management. The second cohort of students was admitted to the CASS Business School, London, UK. We believe this Scheme will help to create requisite capacity in risk management that will enhance our competitiveness in the regional and global market.

Insurance Anti-Fraud Unit to deter insurance fraud

The Insurance Anti-Fraud Unit was set up in 2011 with an aim of reducing malpractice and fraud in the industry. We believe that with it in place, there will be an increase in confidence in the insurance industry.

Use of innovation & technology to improve efficiency

The Authority continued to emphasize on innovation and embracing technology in the insurance industry as the most fundamental step to achieving increased

penetration of insurance services and efficiency in operations. We have amended the law to allow for online submission of returns to improve efficiency in the industry. Further the Authority has facilitated payment of licensing fees by agents via the use of mobile money transfer mechanisms. It also focused on the Micro-Insurance sector which will provide insurance products to the untapped mass market of the country.

Global life premiums fell by 2.7% while non-life premiums grew by 1.9%

Market Performance (Macro Indicators)

With the debt crisis in 2011, there was a notable drop in the overall premiums, a rise in claims and a decline in investment income. This forced companies, especially those transacting in non-life business, to change their strategy and not heavily depend on investment income to sustain profit, but instead to reduce operational and acquisition costs.

Global insurance markets life premiums decreased mainly due to few large markets where insurance premiums sharply fell. Non-life insurance prices may increase as capital reserves decline and rising interest rates reduce the value of bond portfolios. Non-life premium growth in the advanced markets has been supported by gradual rate increases in personal lines of business and in regions affected by large natural catastrophes e.g. risk of nuclear catastrophe in Japan. (**Swiss Re Sigma 2011**)

In 2011 underwriting profit grew by 90% from KES 1.3 billion in 2010 to KES 2.4 billion

Industry Performance in Kenya

The tremendous growth in underwriting profit in 2011 was contributed mainly by the performance of the Motor insurance business. Government securities were the most attractive form of investment giving rise to investments from KES 15.1 billion in 2010 to KES 20.7 billion in 2011 for the short term business and from KES 43.9 billion in 2010 to KES 54.6 billion in 2011 for the long term business. The Life fund grew by 14.4% in 2011 while the surplus went up by 3.3%.

The developments in the industry have arisen as a result of various regulations and supervisory instruments that the IRA has put in place. The IRA issued several circulars in the market for standardizing motor private, motor commercial and PSV insurance policies; issue of short term policies; shareholding structure for insurers; enhanced threshold for listed risks to all general insurers and reinsurers; and reinsurance proposals for 2012 amongst others.

1.0 Introduction

1.1 Overview of the Insurance Industry

The Insurance Regulatory Authority (IRA) normally extracts and publishes the official insurance industry statistics for all licensed insurance companies in Kenya. The data is normally extracted from annual audited accounts and returns submitted by insurance and reinsurance companies to the Authority in compliance with the provisions of the Insurance Act. The report aims at providing progress on the working of the Insurance Act.

The insurance industry in Kenya consists of a number of players namely; insurance and reinsurance companies, intermediaries¹ and other service providers².

The table below shows the number of registered insurance industry players per each category.

Table 1: Licensed insurance players by number

2.0 KEY INDUSTRY DEVELOPMENTS

The Authority continues to take measures that address the challenges faced in Kenya's Insurance Industry as well as undertake other activities of strategic importance to the industry. This is in line with the Authority's mandate which is to Regulate, Supervise and Develop the insurance industry in Kenya. Some of these measures and strategic activities are as follows:

2.1 Amendments to the Insurance Act

The Finance Bill 2011 introduced various amendments to the Insurance Act leading to the following:

- i. *Approval of branch offices of insurance companies:* By inserting a new section 30A of the Insurance Act which provides the following:
 - a. An insurer registered under the Act to seek approval prior to opening a branch or a new place of business in Kenya.
 - b. The Authority to consider for the purpose of approval the history and financial position of the insurer, the adequacy of capital base, viability and earning prospects of the branch as well as other matters which may have bearing.
- ii. *Power to protect the assets of an insurer:* By inserting a new section 67G of the Insurance Act which gives the Authority the power to:
 - a. Assume the control of the whole or part of the insurer's assets
 - b. Hold the directors of the insurer jointly and severally liable for the recovery of the assets where it is established that the assets of the insurer have been misappropriated
- iii. *Harmonization of the Provisions Relating to Approval by the Minister*
 - a. By amendment to Section 113 (1) of the Insurance Act to delete the words "Minister, through Commissioner" and substituting it for "Authority".
 - b. By amendment to Section 114 to 118 of the Insurance Act to delete the words "Minister," and substituting it with "Authority" wherever it appears.
- iv. *Medical Insurance Business:*
 - a. By amending the following forms to add the "Medical" class of business:
 - 1) FORM NO. INS. 54-1
 - 2) FORM NO. INS. 59-1B
 - 3) FORM NO. INS. 59-2
 - 4) FORM NO. INS. 59-3B
 - 5) FORM NO. INS. 59-4
 - 6) FORM NO. INS. 59-9B

- 7) FORM NO. INS. 59-10B
 - 8) FORM NO. INS. 70-3A
 - 9) FORM NO. INS. 203-1B
- b. By amending the Eleventh Schedule Part B Maximum Prescribed Commission to add the class Medical Insurance Business and indicate commission rate of 20% for the new class of business
- c. By amending the Fifteenth Schedule in Paragraph 10 on Reinsurance Commission to add the class 'Medical Insurance Business'
- v. *Rules for the Calculation of the value of liabilities on the minimum basis:* By amending the Seventh Schedule to adopt the KE2001-03 table on mortality rates for the calculation of the value of liabilities on a minimum basis.
- vi. *Summary of Claims:* By amending the Twenty First Schedule on summary of claims to harmonize the schedules with previous amendments to Section 203 of the Insurance Act, Chapter 487 of the Laws of Kenya.
- vii. *Exemption from Income tax to Members Insurers of Association of Kenya (AKI):* Members' contribution in respect of the Integrated Motor Insurance Data Base System (IMIDS) is exempt from Income Tax.
- viii. *Appointment of a Fund Manager for Retirement Benefits Schemes investing in Guaranteed Schemes:*
 - a. Amendment through the Retirement Benefits (Managers and Custodians) (Amendment) Regulations, 2011.
 - b. Retirement benefits schemes investing all their funds in a guaranteed fund need not appoint a fund manager.
 - c. The approved issuer of the guaranteed fund (insurance company) shall however file half yearly investment reports with the Retirement Benefits Authority (RBA).

2.2 Industry Circulars and Guidelines

Fifteen circulars and four guidelines were issued during the year in which various issues were addressed.

1.1.1 Circulars

In the year 2011, the Authority issued a number of circulars which are:

- i. Standardized motor private, motor commercial and PSV Insurance policies for the year 2011 to all insurers, all insurance companies and all Re-insurers vide Circular No. IC/14/2011
- ii. Issue of short term insurance policies for the year 2011 to all insurance companies vide Circular No. IC/13/2011

- xiv. Risk Management to all Insurers and Re-insurers vide Circular No. IC01/2011
- xv. Premium Rates for Industry listed Risks to all insurance companies vide Circular No. IC & RE 01/2011

1.1.2 Guidelines

A number of guidelines were issued during the year 2011 by the Authority. These guidelines aim to enhance efficiency, transparency and disclosure of information to stakeholders. The guidelines issued during the year were;

- i. Claims Management Guideline
- ii. Insurance Products Guideline
- iii. Market Conduct for Insurance Investigators and Motor Assessors Guideline
- iv. Group Life (Listed Risks) Guideline

2.3 Risk Based Supervision

This is a key project for the Authority in line with the general strategic direction taken to change the supervisory approach from Compliance (rule) Based Supervision (CBS) to Risk Based Supervision (RBS). With support from Financial and Legal Sector Technical Assistance Programme – Kenya (FLSTAP), the Authority appointed a consultant to assist in developing a framework for RBS. Among the key deliverables were to develop RBS manuals, models and train staff and members of the insurance industry on RBS. The proposed IRA RBS Model is aimed at ensuring that preventive and corrective measures are taken in a timely and suitable manner. Among the key achievements during the year were:

- i. Training of Staff and Chief Executive Officers of insurance companies on risk based supervision
- ii. Formation of a risk based project team to develop and test evaluation tools such as risk profiling model, define inputs and develop output reports, develop a risk based solvency requirement, develop and implement an early warning system, develop reporting requirements for insurers and brokers and deal with any policy issues.
- iii. The RBS Project Team has made good progress in developing the RBS model. So far the team has developed:
 - a. Risk profiling model for General Insurance Business
 - b. RBS Capital model for General Insurance Business

- c. Capital Adequacy Requirement (CAR) model for General Insurance Business
- d. Input and Output templates for data capture for both General and Long Term Business
- e. Templates based on RBS to capture quarterly data online as well as 2011 returns.
- f. Stress testing and early warning tools for General Insurance Business
- g. Risk profiling model for insurance brokers

2.4 Review of the Insurance Act

The Authority undertook the comprehensive review of the Insurance Act from the year 2008 which was meant to overhaul the entire regulatory frame work in the Insurance Industry. Key on the agenda of the review was to transform the regulatory framework from Compliance based Supervisory model to the risk based one. Through the Consultant, this process culminated to the development of the Draft Insurance Bill and Policy that was presented to the stakeholder's conference on 19th of April 2011 at the Kenya School of Monetary studies. Various views and opinions were given by the consultant as part of their input in the process.

As part of the inclusive process of law making, the Authority yielded to the request made by the Industry that a team be constituted to jointly look at the issued raised at the Stakeholder's Conference. Both Authority and the Industry nominated their members to form a Task Force on the further review of the process. The team agreed to harmonize the two parallel Policies and Bills that had been developed through two different processes. After several deliberations by the task force a new Insurance Industry Policy paper was developed. This policy paper was agreed to form the basis of the new Bill that was to be drafted. The Authority has procured for the drafting of the Bill which is expected to be completed soon before tabling the same for approval by the task forces.

2.5 Development of Micro-insurance Policy Paper

In the year 2011, the Micro-Insurance Steering Group chaired by IRA and with representation from the insurance industry and micro-finance institutions developed a draft micro-insurance policy paper. The policy paper has been submitted to the Treasury for direction before being exposed to the stakeholders. Further, a Micro-Insurance Specialist was hired under existing partnership between IRA, FSD Kenya and ILO and is expected to work closely with the steering committee in driving the micro-insurance agenda in Kenya.

2.6 Standardization of Insurance Contracts

In the year 2011, a Policy Review Task Force was constituted to standardize the wordings of insurance policies. The Task Force finalized standardization of motor insurance policy in 2011 and developed drafts for Burglary, Domestic Package, Money and Public Liability. The drafts will be exposed to the stakeholders for comments before release to the industry for implementation.

2.7 Statutory Management

Blue Shield Insurance Company Limited was placed under statutory management on 16th September 2011 after failing to meet requirements for operation of insurance business in Kenya as provided by the Insurance Act. Other companies under statutory management include Standard Assurance Company Ltd and United Insurance Company Ltd which were both placed under statutory management in 2009 and 2005 respectively.

2.8 Insurance Fraud Investigation Unit

The Authority in partnership with the Criminal Investigations Department (CID) established an Insurance Investigation Fraud Unit (IFIU) which became operational on 1st December 2011. This Unit aims at investigating and prosecuting cases relating to insurance fraud. It is expected that the unit will enhance stakeholders' confidence in the insurance industry in Kenya.

3.0 INDUSTRY REGULATION AND SUPERVISION

Insurance regulation is carried out under the Insurance Act, CAP 487, Laws of Kenya and other relevant laws.

3.1 Registration of Insurers

All insurance companies are required to apply for renewal of registration to conduct business in the succeeding year by 30th September of every year. All companies except Concord Insurance Company and Xplico Insurance Company applied for renewal of registration for year 2012 by the specified statutory time. Table 3 shows the number of insurers registered to transact various types of insurance business in 2012:

Table 3: Number of Insurers Registered

Type of Business	Number of Insurers
General	24
Long term	11
Composite	12
Re-Insurance	3
Total	50

3.2 Reinsurance Business

There are three reinsurance companies registered to transact long term and general reinsurance business in Kenya. Of the three, Kenya Reinsurance Corporation is a public owned reinsurer while East Africa Reinsurance Company Limited and Continental Re are privately owned companies. Mandatory cessions to Kenya Re of 18% still remain in force.

There are also two regional reinsurance companies, the PTA Reinsurance Company (Zep Re) and Africa Reinsurance Corporation. The two regional reinsurers enjoy mandatory treaty cessions of 10% and 5% respectively. Swiss Re, Munich Re and Ghana Re operate liaison offices in the country.

3.3 Intermediaries and Other Insurance Service Providers

Insurance intermediaries comprise insurance agents, insurance brokers, Bancassurance agents and Medical Insurance Providers. Other service providers on the other hand include motor assessors, insurance investigators, loss adjusters, claims settling agents, insurance surveyors and risk managers.

All these players are required to apply for renewal of registration by 30th September every year.

Table 4 shows insurance intermediaries and insurance service providers registered over the last five years:

3.4 License Fees and Penalties

The prescribed time for renewal of registration is 30th September every year. New applications may, however be made at any time during the year at normal license rates.

Table 5 shows license fees and penalties for late application for each player.

Table 5: Applicable license fees and penalties

3.5 Inspection of Insurance Companies

During the year under review, routine onsite inspections on various insurance companies, insurance brokers and medical insurance providers were conducted. Among the issues inspected included premium rates, dealings with unlicensed intermediaries, follow-ups on previous inspections and general operations of the companies.

Under Section 67(d) of the Insurance Act, any person who upon inspection is found to be transacting insurance business without registration, renewal of registration or authorization under the Insurance Act, or with person(s) not so registered or authorized or charging a rate of premium other than that filed with the office of Commissioner of Insurance as required by Section 75 Act shall be separately liable to pay a penalty of two hundred thousand shillings. Companies that failed to comply were penalized appropriately.

During the year also one insurance company was inspected using risk based supervision methodology.

3.6 Consumer Complaints Handling

During the year under review, the Authority received complaints from policyholders and the public against insurers and insurance intermediaries. The complaints are handled by the Consumer Protection section which assists policyholders.

3.7 Submission of Returns

All insurers submitted 2011 annual audited accounts and returns within the statutory time limits with the exception of Trident Insurance Company Limited Concord Insurance Company Limited and Capex Life Assurance Limited. Concord Insurance Company was however granted extension of the submission dates.

3.8 Solvency Margins

Available Solvency Margin refers to the difference between the admitted assets of an insurer and its admitted liabilities. The required Solvency Margin under general insurance business is arrived at by taking 15% of the Net premium income written by an insurer in the preceding year while for long term business it is arrived at by taking 5% of the insurer's admitted liabilities. As at 31st December 2011, the industry Solvency Margin Ratio (SMR¹) for long term business was 238% while that of general insurance business was 415%.

¹ Solvency Margin Ratio (SMR) is a ratio of Available Solvency Margin (ASM) to required solvency margin (RSM) expressed as a percentage.

3.9 Insurance Premium Levy

During 2011, the industry paid insurance premium levy amounting to KES.689.9 million against KES.618.8 million in 2010 representing an increase of 11.0%. Premium levy collected from reinsurance companies in 2011 amount to 98.4 million compared to KES.91.9 million collected in 2010. This represented an increase of 7.0%. Table 6 shows levies paid by insurers, reinsurers and medical insurance providers.

Table 6: Insurance premium levy

Insurance Premium Levy	1%	634	618.8	689.9
Reinsurance Premium Levy	5%	86.2	91.9	98.4

3.10 Policyholders' Compensation Fund

In 2011, the Fund received contributions totaling to KES.352.5 million. This represented a 19.5% increase compared to KES.294.3 million collected in 2010.

3.11 Actuarial Valuations

All insurers transacting long-term insurance business submitted their actuarial valuation reports for the year 2011 within the prescribed time (30th April) except Capex Life Assurance Limited.

The life fund grew by 11.6% while Net actuarial liabilities grew by 16.9% from KES.101 Billion to KES.116 Billion. Total Surplus grew by 3.3% while surplus to policyholders declined by 6.7% in the same period; Surplus carried forward grew by 6.7%.

Table 7 shows industry life-fund, net actuarial liabilities and distribution of surplus.

4.0 INDUSTRY PERFORMANCE

The performance of the insurers underwriting long term insurance business is analysed as follows.

4.1 Long Term Insurance Business

Long term insurance business comprises of the following classes of business; bond investment, industrial life, ordinary life and superannuation.

4.1.1 Performance

The following table shows the various long term insurance business performance indicators for the last five years.

Amounts in '000' KES.

In the year under review ordinary life business accounted for 40% while Superannuation accounted for 60% of the total Gross Direct Premium written. Under ordinary life, gross direct premium grew by 14% from KES.11.0 billion in 2010 to KES.12.5 billion in 2011 while Management expenses grew by 11% between 2010 to 2011 against a 6% increase between 2009 and 2010. Ordinary life business Life fund decreased by 8% from KES.39.4 billion in 2010 to KES.36.2 billion in 2011.

Superannuation gross direct premium grew by 18% from KES.16.2 billion to KES.19.0 billion while Management expenses grew by 8% from KES.1.7 billion in 2010 to KES.1.9 billion in 2011. Life fund increased by 20% from KES.60.6 billion in 2010 to KES.72.8 billion in 2011.

The following graph shows the trend of GDP under long term insurance business for the last five years.

4.1.2 Outward Reinsurance Premiums

Retention capacity under ordinary life business was 98%; On the other hand, retention under superannuation business was 90% in the year 2011. Outward reinsurance has been growing over time as shown in Figure 5. This is an implication that the insurance companies are adopting more risk aversion strategies thus the spread of risks.

The following table summarizes the outward reinsurance premium under life insurance business

4.1.3 Claims and Policyholders' benefits

In 2011, a total of KES.15.8 billion was paid out to policyholders as claims and benefits compared to KES.14.2 billion paid in 2010 representing a growth of 11.2%. Despite the general increase in claims and benefits, it is worth noting that claims by death declined by 17.1%. Table 10 summarizes claims and policyholders' benefits for the past five years.

4.2 General Insurance Business

The following is the analysis of performance of general insurance business

4.2.1 Gross Direct Premium Income

Total GDP in 2011 amounted to KES.58.7 billion compared to KES.49.8 billion in 2010 representing a growth of 18%. However, this growth rate was lower than that witnessed in 2010 which was at 25%.

Gross direct premium income per class of general insurance business is given in table 11

Analysis of GDP income performance over the five year period commencing 2007 shows a steady growth as illustrated in figure 8.

Figure 8: Trend of Gross Direct Premium

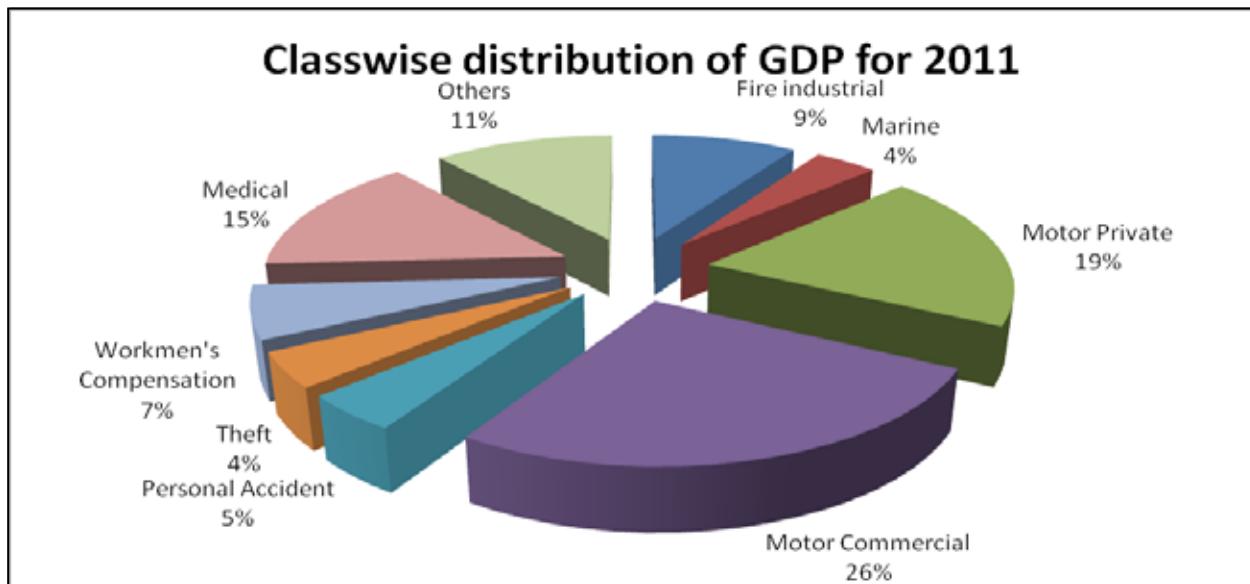

4.2.2 Class-wise Distribution of Gross Direct Premium Income

Generally, the distribution of GDP across the different classes of general insurance has not significantly changed over the past five years. However, the big variation noted in Personal Accident (PA) class of business from 2009 to 2010 was as a result of separation of Medical Insurance business from PA business. Medical insurance business grew by 12.4% in the period under review. Motor Commercial, Motor Private, Medical and Fire Industrial classes combined accounted for 69.5% of the total business in 2011. Like in the previous years, motor commercial remains the leading source of premium income for underwriters.

Figure 9 shows the distribution of GDP per class of general insurance business for the year 2011.

In the year 2011, inward reinsurance premiums amounted to KES.1.5 billion from KES.1 billion recorded in 2010 representing a 55% growth. This growth was the highest recorded since 2008. Figure 10 illustrates the general trend of inward reinsurance premiums between 2007 and 2011.

Figure 10: Trend of Inward reinsurance premium incomes

Fire Industrial (KES. 591 million), Miscellaneous (KES. 167million) and Engineering (KES. 162 million) accounted for most of the inward reinsurance premiums. The sharing is mostly in form of facultative arrangements.

4.2.4 General Business Outward Reinsurance Premiums for Insurers

The following table summarizes the outward reinsurance premiums under general insurance business

In 2011, the insurance industry net earned premiums amounted to KES.45.7 billion compared to KES.38.8 billion in 2010 (representing 18% increase). Of this, motor commercial was the leading with KES.14.8 billion earned in 2011 compared to same period in 2010 when KES.12.3 billion was earned. Other notable contributions to industry premiums were recorded in motor private and medical insurance earning KES.11.0 billion and KES.6.7 billion respectively.

The trend of net earned premiums is illustrated below.

5.0 INDUSTRY PERFORMANCE – REINSURERS

The reinsurers' performance was also analysed under long term and general insurance businesses respectively.

5.1 Long Term Reinsurance Business

The performance for the reinsurance companies was analysed for both long term and general business

5.1.1 Inward and Outward Reinsurance Premiums

In the year 2011, inward reinsurance premium received through facultative arrangements under ordinary life was KES.114 million while inward reinsurance premium for superannuation was KES.1.2 billion. The total for the reinsurance industry was KES.1.3 billion representing an increase of 40%.

Outward reinsurance premium retroceded by reinsurance companies during the year 2011 amounted to KES.169 million compared to KES.142 million in 2010 representing an increase of 19.0%.

5.2.6 Underwriting Results

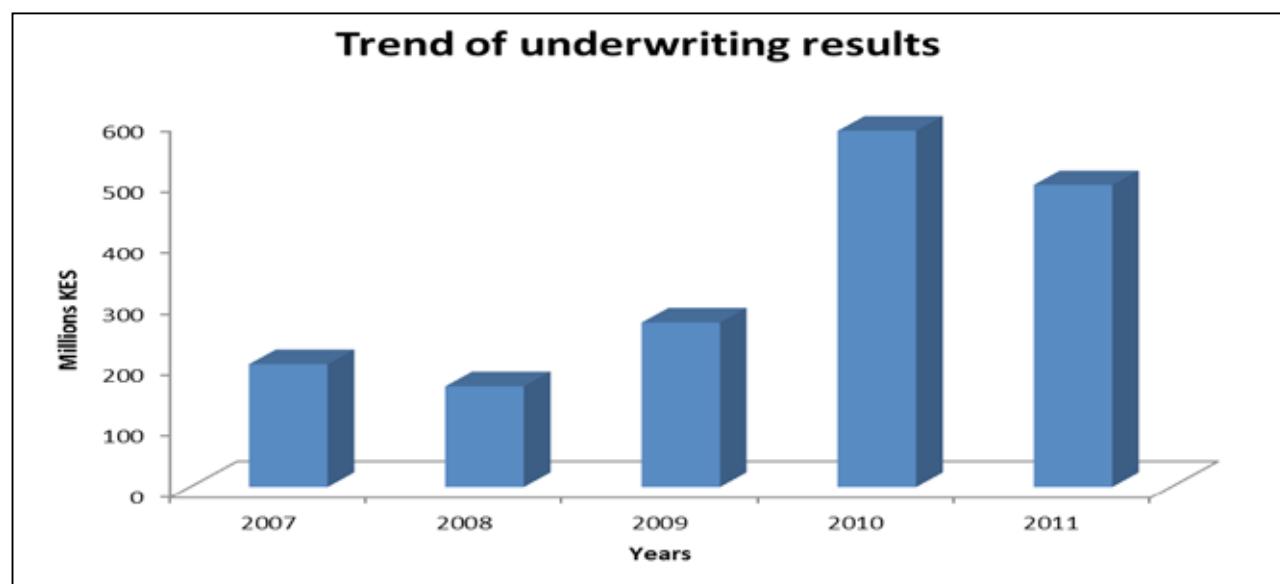

In the year under review underwriting profits in general reinsurance business amounted to KES.494.12 million down from KES.583.04 million in 2010 representing a decline of 15.3%. Engineering was the most profitable class of business while Personal Accident was the most loss making class of business in 2011. Notable underwriting losses were recorded in Fire Domestic, Fire Industrial, Personal Accident, Workmen's Compensation and Medical classes of business. It is important to note that Marine and Theft classes of business made tremendous improvement in underwriting results from loss making in 2010 to profit making in 2011. The underwriting results for general reinsurance business for the five year period are summarized in table 25.

5.3 Industry Profit and Loss Statement

There was growth of 6% in total income under general business in 2011. Industry profit after tax increased by 9% during 2011; however this rate is much lower than the 79% growth experienced in 2010. Provision for taxation and the profit transferred from revenue accounts increased by 13% and 6% respectively. Investment income increased by 6% between the years 2010 and 2011. Table 26 shows the industry Profit and Loss Statement for the period 2007-2011.
