About Insurance Regulatory Authority

The Insurance Regulatory Authority (IRA) is a State Corporation whose mandate is to regulate, supervise and promote the development of the insurance industry in Kenya. The key players regulated by IRA are insurance companies, reinsurance companies, insurance brokers, insurance agents, motor assessors, insurance investigators, insurance surveyors, loss adjustors, claim settling agents, and risk managers.

All incorporated entities regulated under the Insurance Act are required to submit various periodic returns to IRA. All direct insurers are required to submit their monthly summary of claims returns within fifteen (15) days after the end of the month to which the returns relate.

Reliance and limitations

The information contained in this report has been obtained from the monthly summary of claims returns submitted to IRA, pursuant to the provisions of the Insurance Act, Cap 487. No adjustments have been made to the returns data except where adjustments have been made in consultation with the affected insurers.

The publication of any summary of an insurer's return in a report does not necessarily mean that the returns so summarized have satisfied all the requirements of the Insurance Act, Cap 487, or that the Authority approves the accuracy of the contents of the returns. All regulated long-term and general insurance companies had submitted their monthly summary of claims returns as of the date of preparation of this report except Xplico Insurance Company Limited and Trident Insurance Company Limited.

Where necessary, figures have been adjusted to eliminate errors in totals due to rounding off.

1.0 Introduction

Both long-term and general insurance business underwriters are required to submit monthly summary of claims returns to IRA through the electronic regulatory system (ERS).

These returns are submitted within 15 days from the end of the month to which they relate. At the time of preparation of this report, all the insurers had submitted their monthly summary of claims returns for the third quarter of 2023 except for Xplico Insurance Company Limited and Trident Insurance Company Limited whose data was excluded due to non-submission of the returns for the months of August and September respectively.

The quarterly claims settlement statistics summarizes quarterly claims data into number of claims outstanding at the beginning of the quarter, action taken during the quarter, and the number of claims outstanding at the end of the quarter. Further, under general insurance business, a distinction is made between liability¹ and non-liability claims.

- less claims paid during the quarter
- less claims declined and claims closed as no claims during the quarter.
